

Industrial vacuum cleaner 221A

Product name	Industrial vacuum cleaner 221A
Filter type	Cartridge
Number of filter elements	1
Filter material	Microfibre
Type of hose	PE/C
Compressed air requirement	3,0 Nm ³ /min
Max airflow (m ³ /h)	342
Noise level (dB(A))	75,5
Max vacuum (kPa)	-52
Hose length (m)	7,5
Hose diameter (mm)	51
Note	With cleaning set, brush, conical and toothed nozzle

Industrial vacuum cleaner 221A

Description	Model
221A - NE52, S50,	42122106*

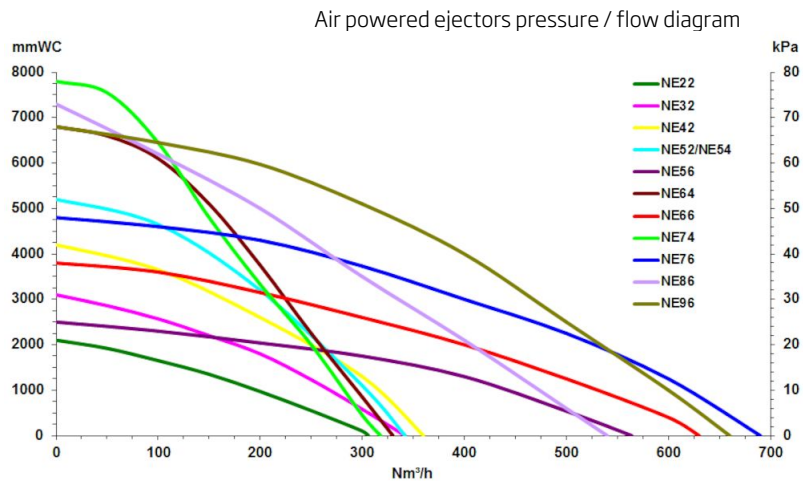

*With cleaning set, brush, conical and toothed nozzle

Hose type	Specification	Temperature range, °C	Hose fittings in free hose end, distribution hose	Hose fitting on free hose end, inlet hose	Hose connection on reel, distribution hose	Hose connection on reel, inlet hose
PEC	For cleaning applications Max vacuum 50 kPa Conductivity 10^3 to 10^6 Ohm/m	-40 Deg. C. - +60 Deg. C.				

Industrial vacuum cleaner 221A

	Accessory	Part No
	Control S for NE 22-76	43220001
	Control S for NE 22-76	43220026
	Control S for NE86-96	43222008

Industrial vacuum cleaner 221A

Air Powered ejectors

All performance data are based on 7 bar supply pressure
